- Churned Customers: pending (expected \$119.98)

TODAY'S PRIORITIES

1. Churned Customers is still pending, estimated impact \$119.98.
2. High Return Rate Product is still pending, estimated impact \$20.00.
3. Revenue Concentration Risk is still pending, estimated impact \$670.00.
4. Dead Inventory is still pending, estimated impact \$425.00.

CHANGES SINCE YESTERDAY

No measured outcome changes yet.

TODAY'S PRIORITIES

- HIGH

1. High Return Rate Product (+\$20.00 potential)
- HIGH

2. Churned Customers (+\$119.98 potential)
- MEDIUM

3. Revenue Concentration Risk (\$670.00 at risk)

STORE DIAGNOSIS

Status: Weak
Main issue: high return rate product + churned customers

MONEY SNAPSHOT

Type	Value
Recoverable Revenue	+\$139.98
Risk Exposure	\$670.00
Net Impact	-\$530.02

TODAY'S EXECUTION PLAN

Execute in order

1. Fix revenue leakage -> pause high-return SKU (2 min)

2. Recover churned revenue -> send win-back emails (5 min)
3. Reduce dependency risk -> run new-customer campaign (8 min)

KEY ISSUES

Core issue summary

- High return rate product -> revenue leakage
- Churned customers -> \$119.98 recoverable
- Revenue concentration -> dependency risk

INVENTORY RISK

Stock pressure summary

- 26 out-of-stock variants -> lost sales occurring
- 2 critical stock items
- 1 low stock item

Top priority restocks:

- The Complete Snowboard
- Gift Card
- Selling Plans Ski Wax

CUSTOMER RISK

Customer concentration snapshot

- Revenue concentration: 2 customers = 100%
- 5 churned customers (>90 days)
- 0 repeat purchases in last 30 days

Insight: Losing one key customer could materially reduce revenue stability.

REVENUE SUMMARY

Metric	Value
Revenue	\$169.96

Orders (7d)	0
Status	Stalled

Insight: Main issue is low traffic and conversion, not pricing.

FINAL SUMMARY

Executive Recommendation

Revenue is currently limited by product returns and customer churn.

Fix these first to restore baseline performance.
